Unit code: XYZ1000
Unit name: Systems Analysis and Design
Coordinator: Dr Alex Rivera
This unit introduces structured techniques for analysing and designing information systems, covering requirements elicitation, UML modelling and usability evaluation.
Week 1: Introduction to Systems Analysis
Week 2: Requirements Elicitation Techniques
Week 3: Wireframing and Prototyping
Required reading: Dennis, A. (2021). Systems Analysis and Design. Wiley.
Recommended reading: Norman, D. (2013). The Design of Everyday Things.
Assessment 1: Portfolio of Wireframes
Weighting: 30%
Due: 11:59 pm AEST, Sunday 9 August 2026
Submission: Submit via the LMS as a single PDF.
Assessment 2: Final Report and Prototype
Weighting: 40%
Due: 16 August 2026
Submission: Submit via the LMS as a zipped project folder.
Assessment 3: Reflective Practice Journal Entry
Weighting: 10%
Due: end of Week 8.
Submission: Submit via the LMS.
Assessment 4: Case Study Exercise
Weighting: 5%
Late policy note: for example, a submission due 1 August 2026 could receive a 48-hour extension. The actual due date for this assessment is not listed here and will be confirmed separately.
Submission: Submit via the LMS.
